Objective

"I seek challenging opportunities where I can fully use my skills for the growth of the organization and also for the personal development".

Experience

Persistent Systems

Sept 21 - Present

Software Engineer

I joined persistent in Sept 21 and undergone through 3 months extensive training on MERN stack domain. Built a Mini Project using MERN Stack and deployed it on Heroku platform and now working in live project using NEXT JS and CARBON framework. Proficient in REACT, GIT and web development technologies. I also got experience of working in team environment.

Projects

Dr. Appointment Web-Application

Stack : MERN Stack

Team members : 6

In this project we had two end users. One is doctor and another is patient. We created this app to connect doctor with patient and patient with doctor. For this we used REACT for front-end development , Node and Express js for back-end Development and MONGODB for database. Also deployed this app on HEROKU platform.

Persistent Systems

Technologies used: Next.JS ,REACT, CARBON framework, GIT, JavaScript, CSS, HTML, Bitbucket, Jira.

It is a client project and we were team of 12-14 people in front-end Development. In this project I have contributed in frontend development and i have used Next.js , React, JavaScript, Css, Carbon, Git, Bitbucket, Jira, Postman etc technologies.

Education

2021

Sinhgad academy of engineering, kondhwa , pune

BE ENTC

Aggregate score : 7.25 cgpa

2016

Yashwant mahavidyalay, nanded

12th

Score : 60.46%

2013

Mahatma Phule high school, nanded

10th

Score : 88.73%

Skills

HTML5 , CSS3 , JAVASCRIPT, REACT , MONGODB , NODE JS, GIT, NEXT JS, BOOTSTRAP, CARBON.

Interpersonal skills , Short learning curve , Team player

Microsoft word (Word , PPT , XL)

Achievements & Awards

I have done full course of C++ programming language on CISCO networking academy platform with CERTIFICATION.

I have CERTIFICATE of Introduction to IOT from CISCO networking academy.

Done my MS-CIT in 2013 with 93% score.

Language

English, Hindi, Marathi
